**OUR QUARTERLY SAFETY**  
**TRAINING**

# WE LOVE WIND!

The need for clean and renewable energy is growing across the country & we are proud to play a role in this movement. We currently have crews in Washington, Texas, Nebraska, Wyoming, Kansas, Colorado, Michigan & South Dakota. All are building and maintaining multiple wind projects. Our entire wind team is highly skilled and experienced.

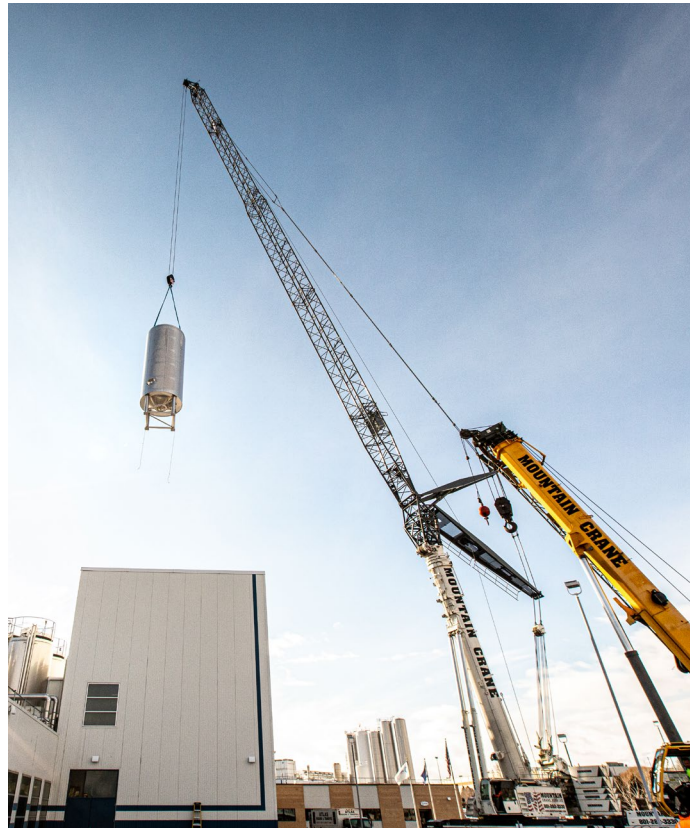

## TWO CRANE TRIP AND SET

Our team was on-site on a crisp morning with our Liebherr 500 ton and our Grove 80 ton recently where we tripped and placed a 28,000 lb tank at a 215 ft radius for our customer.

## LOOKING BACK ●●●●

Bridge girders being set in the still of the night. Back in 2017 the Mountain team placed several beams along a busy roadway in Provo, Utah.

# MOUNTAIN STRONG

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
