MOUNTAIN MECHANIC SERVICES

We are proud to offer mobile technician & mechanic services from Texas to Washington and everywhere in between. All technicians are factory certified with service trucks. We offer any crane assembly or disassembly needs along with any and all mechanical services for cranes from 7 ton carry decks to 1100 ton crawlers.

M MOUNTAIN

A HOME IN A DAY

Talk about a quick turn around! This home was built completely in a factory, brought to the site, and our team did the heavy lifting. Our 200 ton crane and crew installed this modular home in no time at all, leaving the structure move-in ready! The home was built by Modal Living and is totally customizable for cabins, rentals, and recreation. Glad to be a part of this scenic job site!

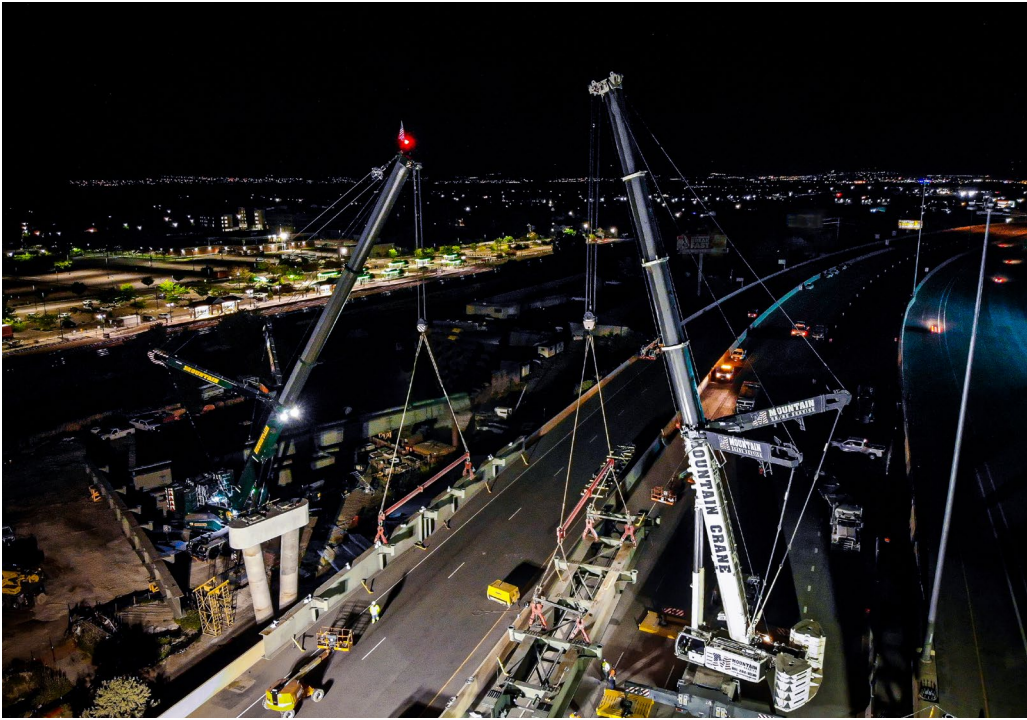

That's one BIG bridge!

Our 900 ton, 500 ton, and awesome crew placed 12 girder sections of this nearly 1,100' pedestrian bridge over Interstate 15. Since the beginning of this OlsenBeal project we have had 5 different cranes involved.

It is considered to be the longest foot bridge in Utah. It will connect the UVU campus to public transit, housing, and additional campus buildings. This will greatly expand future opportunities for the university. We are proud to be involved in this great project. Expected completion is Dec. 2020

Looking Back

2015

Tower crane build up in Downtown Boise, Idaho with our "Iron Man" 550 ton Grove

MOUNTAIN STRONG

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
