## Future Operators?

What a treat it was recently receive this photo from the mother of these two young boys. They were thrilled to watch our crane doing work on the Provo City Center. Our operator noticed the boys took the time to visit with them and give them some hard hat stickers!

## A Full Service Wind Team

As the demand for renewable energy increases, our team and equipment have evolved to meet those needs. Our fleet, including multiple FTV 550 blade

movers, and our ever expanding wind crews have the expertise to meet the needs of even the most complex projects. With wind teams in multiple states and projects outside the US, No job is too remote or too difficult for Mountain's team. Whether it's wind maintenance, turbine re-power, or mechanical completion, our team is at the ready.

# Wind Projects Throughout the US and Central America

## HONORING OUR VETERANS

Employing US Veterans is something Mountain takes great pride in. The skill, commitment and dedication shown by these great men and women have undoubtedly lifted our company to be better and serve our clients better. Each year we take the opportunity on Veterans Day to recognize the great sacrifice they have made for our country.

A few of our veterans gathered for a photo on our Lompoc wind project.

## Looking Back to 2016

Hauling a 1.2 million pound steam generator. At the time, this was one of the heaviest moves in Mountain's history. Over the years our fleet has grown from the original 20 lines of Goldhofer to nearly 100 axles. Goldhofer trailers have helped us transport loads well over a million pounds and are the gold standard for off-road heavy haul. We have towable, self propelled, and E-steer options to fit any need.

## Upcoming Wind Convention in Salt Lake City, UT

American Clean Energy Conference Dec. 7th & 8th

American Clean Energy will host it's annual convention December 7th and 8th in Salt Lake City. We are looking forward to attending the conference with our associates from across the wind industry in our home town. If you'll be at the conference and would like to learn more about the events Mountain is hosting, please contact us at:

[info@mountaincrane.com](mailto:info@mountaincrane.com)

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
